

Time at home Covid-19

Since I'm out of school it has been hard not spending time with my friends. It's such a weird time. I'm living with my Nana and Uncle at the moment. So I'm lucky that I get to spend time with them. It's hard to have a routine but I have been getting up around 10, chatting/playing games online with my friends. Then I have my breakfast and help with jobs around the house. I have been doing some homework every day and going for a walk with my Mam and my sister Megan. We walk around different parts of Ballyphehane most days and talk to each other. We also play board games or cards some evenings, which I really enjoy. We play card games like speed, aces and take 2. We also play board games like connect 4 and Sherlock homes.

On Mother's Day I made breakfast in bed for my Mam, my sister Megan helped me. My aunt Sarah and my cousins Callum and Aine came over to see my nana after dinner as it was Mother's Day but she stayed outside the gate and we stayed by the door. My Mam, Aunt and Nan had tea and Megan, Callum, Aine and I had juice and we chatted from a distance. It was so nice to see my cousins but a bit sad I couldn't hug them and play with them but we have to be safe. I video call them most days so that's nice.

Even though I miss being with my friends a lot and I miss being at school and doing my afterschool activities it is nice just spending time with my family. I hope this virus will go soon and everyone stays safe.
